Small Animal Graduate Development Programme

Developing the Next Generation of
VetPartners Veterinary Surgeons

Rob Williams MVB CertSAS MRCVS Programme Director

Programme Outline

VetPartners has a commitment to develop and support its people. We see the support and training of new and recent graduates as a priority, as part of that we have established a comprehensive programme to develop skills and confidence.

Areas covered in the programme may include:

Year 1

- Programme Introduction
- Cardiology
- Rabbit Medicine
- Surgery Practical
- Emergency Medicine
- Feline Medicine
- Clinical Decision Making
- Managing Cases on a Budget

Year 2

- Veterinary Practice as a business
- Cardiology
- Ultrasound
- Surgery Practical
- Oncology

The Small Animal Graduate Development Programme has been designed to build on the knowledge and skills learnt at university and provide recent graduates with the necessary support to allow them to develop as small animal clinicians.

The goals of the VetPartners Graduate Development Programme are:

1. To develop our new graduate veterinary surgeons (NGVS) into confident and competent members of the profession.
2. To give them a solid grounding in the management of the most common clinical presentations that encourages appropriate investigation and treatment of these conditions.
3. To give our NGVS some understanding of veterinary practice as a business.
4. Give them appropriate support throughout their first 2 years in practice.
5. To develop a team ethos among each cohort of NGVS.

If you have any queries about the Graduate Programme please feel free to contact Rob: rob.williams@vetpartners.co.uk | 07508 700 247
